age 19 years of age and over unless he is dependent upon you for support, while a full-time student. A full-time student is one who is enrolled for 12 semester hours for credit in an accredited junior college, college, or university. Any exception for a full-time student will end at age 23.

If a person's insurance ends, benefits for the dental services listed below will be paid if such services are completed within 31 days of the date insurance ends. Dental benefits may be paid for: (a) an appliance, or modification of it, for which the tooth was prepared while the person was insured under this benefit section; (b) a crown, bridge, or gold restoration, for which the tooth was prepared while the person was insured under this benefit section, and; (c) root canal treatment, if the pulp chamber is opened while the person was insured under this benefit section.

Alternate Benefit: If (1) United States Life will determine if a less expensive alternate procedure, service, or Course of Treatment can be performed in place of the proposed treatment to correct a dental condition; and (2) the alternative treatment will produce a professionally satisfactory result; then the maximum we will allow will be the charge for the less expensive treatment.

GENERAL INFORMATION

Deductible Amount: The Deductible is shown in the Coverage Schedule. The Deductible is an amount of covered dental charges incurred by an insured person for each calendar year for which no benefits will be paid.

Calendar Year Maximum: The maximum amount payable for all Eligible Dental Expenses in any calendar year is shown in the Coverage Schedule. The Calendar Year Maximum will apply to each insured person.

Coordination of Benefits: This benefit provision will coordinate a person's benefits with any other group, blanket or franchise plan under which an individual will receive benefits. This helps keep the cost of the program reasonable.

Termination of Coverage: Coverage terminates on the earliest of the following dates: the last day of the month in which you cease to be eligible for coverage; for dependents, the last day of the month for which they are no longer an eligible dependent as defined; subject to the Grace Period, the last day of the month for which a premium has been paid by you or on your behalf; or the date the Master Policy ends.

Pretreatment Review: If the course of treatment for a dental service on fixed bridgework exceeds \$300, United States Life must be notified. We must be given the Dentist's treatment plan consisting of a description of the planned treatment with estimated charges and diagnostic x-rays must be provided. United States Life will determine Eligible Expenses and state how much will be paid for the treatment. This determination may suggest an alternate, less expensive Course of Treatment, if it will produce professionally satisfactory results. If you do not request a pretreatment review, the least expensive method of treatment, regardless of the method actually used, will be paid.

Effective Date: Effective dates are always the first of the month following the date United States Life approved the request. Incomplete enrollment forms or failure to submit the required initial premium amount may cause an initial delay in issuance of insurance. Do not cancel any other insurance or assume you are insured under the program until you receive written confirmation from Pearl Insurance.
